Quality Heating Services For Your Home

Why choose an OFTEC registered company:

The role of OFTEC is to establish the standards for competence within the domestic oil heating and cooking industry. By ensuring the quality of people and businesses working in the area, OFTEC maintains standards for reputable companies and consumers alike.

Our Gas Safe and OFTEC registered company provide reassurance that our accredited engineers are fully trained to diagnose and repair oil fired and gas heating system in compliance with current regulations.

Employing an OFTEC registered technician for the regular servicing and maintenance of oil and solid fuel heating equipment is the best guarantee that your system will run safely and efficiently.

Boiler Maintenance Services from us:

We offer a variety of boiler maintenance services to ensure that your heating systems run in compliance with safety regulations all year round. Whether you are a commercial or domestic customer, we have a package to suit your needs.

It is important to have your boiler serviced regularly, to safeguard your system against breakdowns, and maximise efficiency - an inefficient boiler can use up to 25% more fuel, costing you money.

Our team are based throughout Scotland at our local depots and are dedicated to offering you a personal local service at an appointment to suit you.

Meeting the needs of our customers

Annual Boiler Service:

A professional boiler service by one of our specialised engineers provides peace of mind knowing that your heating system is protected, and less-likely to suffer a costly, unexpected breakdown or repair.

An annual boiler service ensures you get the best from your heating system. An efficient heating system helps to reduce running costs and unnecessarily high bills over the colder months.

As part of the routine boiler service, our engineers will provide;

- A thorough clean of your boiler
- A combustion efficiency check
- Any essential replacement parts will be fitted (parts chargeable above service cost)

Annual Maintenance Contract :

Our annual maintenance contracts are managed by our experienced boiler maintenance staff, taking the hassle out of managing your boiler services. Our team will contact you when you are due a service to arrange an appointment time to suit you.

We can offer our customers two types of Annual Maintenance Contracts - fixed price or an hourly rate package. Both packages can be upgraded to include two services a year (depending on the appliance). Up-to-date prices for both packages can be found on our website.

Providing you with emergency support

Boiler Breakdown Service:

We understand that things don't always go to plan, if your boiler unexpectedly suffers a breakdown or requires an emergency repair, call our team of boiler maintenance engineers who provide an emergency call-out service 356 days of the year.

Our usual callout operating hours are between 8am and 5pm on weekdays. However our emergency call out service is available throughout the year, including at weekends and over the festive period.

Callout charges cover labour only, parts are chargeable separately. Callout charges can be found via our website.

Fixed Term Agreements

A fixed term agreement from Gleaner Ltd provides the complete care and support package for oil fuelled heating systems.

The agreement provides a flexible payment option for purchasing a new fuel storage tank. Rolling a new tank, remote oil level monitoring device and annual boiler service, into one easy to manage monthly payment, spread over 60 months.

Rest easy knowing your oil fuelled heating system is operating safely and efficiently for the duration of the agreement. Our engineers will ensure your new fuel tank and boiler are inspected annually, while our experienced support team take care of placing our orders.

Providing Ongoing Support To You

Watchman Oil Level Gauge

Electronic and mechanical oil tank contents gauges and oil tank monitors to allow you to see your oil level in your oil tank. We can supply two main types of oil tank gauges:

Watchman Sonic

The sonic is designed to be used with plastic storage tanks. A receiver located within your home will electronically display the oil level in your storage tank, letting you know when to order.

Watchman Anywhere

The Anywhere is a remote oil level monitoring device with allows you to monitor your oil levels anywhere at anytime via your smartphone, email, text, computer or tablet.

Fuel Storage Tanks

We sell a wide range of Atlas bunded oil storage tanks suitable for home heating oil , commercial and agricultural uses.

The use of Atlas bunded tanks is strongly recommended for any oil storage. Guaranteed for 10 years this well respected range of tanks offers an excellent combination of shapes, capacities and features.

Whether your tank has come to the end of its useful life due to age or damage, or you are installing a new oil system and require a bunded fuel storage tank, our experienced boiler maintenance engineers will be able to provide advice on the most suitable fuel storage tank for your needs.
